Re: Bad River Tailored WQS amendment		08/18/2000 10:38 AM	

Document Body

Hi Tracey,

I've made your suggested changes to the Bad River standards version that is in rule language format. I added "change in background" as a separate definition (number 7). Let me know if you don't like it being separated from "background conditions." In the attached file I've included the most recent version so that you can continue to check it over and make sure I've made all of your suggested changes. Also, I'm copying John Colletti on this message, per your request.

Subject: Bad River Tailored WQS amendment

Kathy,

The amendment was adopted by Tribal Council on 8/9/00. This should be added into the definition of "Background"

Additional definition

§131.XX Bad River Band of the Lake Superior Tribe of Chippewa Indians of the Bad River Reservation

(d)(4)(4) a "change in background" shall mean a change which can be measured with reasonable scientific certainty using accepted analytical

methods as in (e)(6) of these standards.

PLEASE forward to John Colletti also. Thanks
